Game Instructions

Goddess of Fire is a Scatter Pays slot game. Wins are formed when 8 or more matching symbols land anywhere on the grid.

How to Play

- Press the BET button to select the desired bet for the round.
- Press the PLAY button to start the round.

Wins

A winning combination is formed by 8 or more matching symbols landing anywhere on the grid. All winnings are multiplied by the total bet. Winning combinations and payouts are listed in the paytable. Only the highest win per win way is paid. If multiple win ways result in wins, the winnings are added together. Winnings are automatically added to the balance. The maximum win multiplier for a single game round (including the base game and any Free Spins) is 5,000 times the total bet. If the total win of a game round reaches this limit, the round ends immediately and any remaining Free Spins will not be played. The player is awarded the win corresponding to the maximum win multiplier.

The probability of achieving the maximum win is approximately 1 in 1,000,000,000.

Features

Cascading Wins

Whenever 8 or more matching symbols land, they explode and new symbols cascade down. Cascades continue as long as new wins appear, allowing multiple consecutive wins in a single spin.

Blaze Multipliers

Blaze Multipliers can appear on the initial symbol drop with values of x2, x3, x4, x5, x7, x10, x15, x20, x25, x50, or x100. During the same spin, each winning cascade increases all Blaze Multipliers by +1. If multiple Blaze Multipliers are present, their values are added together and applied to the win from that cascade, except for Scatter symbol wins. The total multiplier resets at the start of each new spin.

Inferno Free Spins

The Scatter symbol appears only in the base game. Four or more Scatter symbols trigger the Inferno Free Spins and also award a win according to the paytable:

- 4 Scatter symbols → 15 Free Spins
- 5 Scatter symbols → 20 Free Spins
- 6 Scatter symbols → 25 Free Spins
