INTRODUCTION

- Press PLAY and the symbols will fall into place on the 5x3 game board. Find a winning pattern of identical symbols to win a prize! Each time a winning pattern is displayed, those symbols will be destroyed and new symbols will fall into place from above.
- Find a winning pattern while a MULTIPLIER symbol is on the board to multiply your win for that game round by that amount.

HOW TO PLAY

Press PLAY and the symbols will fall into place on the 5x3 game board. If a winning pattern is revealed:

- Those symbols are destroyed
- New blocks fall from the top to fill the gaps created

If the new symbols that get added lead to a new winning pattern, the process continues until no winning patterns are present. Once no winning patterns are present, the total is awarded to the player.

BONUS GAME

Press GO to spin the wheels. When the wheels stop, 3 segments of the wheel will be highlighted at the top in the WIN ZONE. The 3 highlighted segments in the WIN ZONE define what is awarded to the player.

If the wheel stops on three highlighted prize segments in the WIN ZONE, those three prizes are added together to define the prize awarded.

If the wheel stops on two highlighted prize segments in the WIN ZONE and one "\$" symbol in the WIN ZONE, those two prizes are added together to define the prize awarded. The single "\$" symbol does not add anything to the prize awarded.

If the wheel stops on one highlighted prize segment in the WIN ZONE and two "\$" symbols in the WIN ZONE, the single prize is awarded. The two "\$" symbols do not add anything to the prize awarded.

If the wheel stops on three highlighted "\$" symbol in the WIN ZONE, the top prize above the wheel is awarded to player.

Multipliers won in the base game prior to unlocking the Bonus Game are only applied to the base game wins. The Multiplier is not applied to any Bonus Game wins.
